

1 Ton Electric Forklift

SKU: HFL1T

The **HEIGER 1 Ton Electric Forklift** is a high-efficiency, eco-friendly solution designed for warehouses, logistics, and manufacturing. Powered by a durable lead-acid battery, it offers precise control, low noise, and minimal maintenance, ensuring reliable performance and reduced operating costs. Ideal for businesses seeking sustainable and cost-effective material handling.

HEIGER 1 Ton Electric Forklift

Product Overview: The **HEIGER 1 Ton Electric Forklift** is a reliable and eco-friendly solution for modern logistics and industrial operations. Powered by a durable lead-acid battery, this forklift ensures high efficiency, safety, and low energy consumption. Designed with advanced electric technology, it enhances productivity while reducing operating costs, making it a perfect fit for businesses seeking sustainable and cost-effective solutions. **Product Features:**

- **Electric Drive:** High-efficiency electric drive system with zero emissions and low noise, providing an environmentally friendly and energy-saving operation.
- **Durable Lead-Acid Battery:** Equipped with a long-lasting lead-acid battery, ensuring extended operation times and quick recharging for continuous workflow.
- **Precise Control:** Offers responsive and flexible control, making it ideal for navigating narrow and crowded environments.
- **Safety Performance:** Features advanced safety systems, including protective devices, intelligent brakes, and reversing alarms, ensuring a safe working environment.
- **Versatile Application:** Suitable for various sectors including warehousing, logistics, manufacturing, and retail, boosting operational efficiency and flexibility.
- **Low Maintenance Cost:** The simple design leads to reduced maintenance work, lowering downtime and operational costs.

Applications

- **Warehousing & Logistics:** Enhances cargo handling efficiency, adapts to various warehouse layouts.
- **Manufacturing:** Supports material transport and loading/unloading, improving production line productivity.
- **Commercial Buildings:** Ideal for material handling in construction environments.
- **Retail Industry:** Suitable for supermarkets, shopping malls, and other retail spaces for efficient cargo sorting and shelf replenishment.

The **HEIGER 1 Ton Electric Forklift** is the perfect solution for businesses across Australia looking for reliable, eco-friendly, and cost-effective material handling equipment. Whether you're in **Sydney, Melbourne, Brisbane, Perth, or Adelaide**, you can **buy, shop, or rent** this forklift **online from HEIGER Australia**. Designed for maximum efficiency and minimal maintenance, it's ideal for warehouses, manufacturing, and logistics operations. **HEIGER** offers nationwide delivery, ensuring that businesses all over Australia can access top-tier forklifts to improve their operations.

Specification

loading-capacity: 1 ton
standard-lift-height: 3 meters
maximum-lift-capacity: 1-stage Mast

ground-clearance:	9.5 cm (min)
tilting-angle-of-mast:	6° / 12° (Front/Rear)
climbing-capacity:	15% / 13% (No Load/Full Load)
dimensions:	2100 x 1120 x 2150mm (L x W x H)
front-axle:	Cast-steel Axle
tires:	Front: 500-8, Rear: 400-8
braking-method:	Oil Brake
driving-motor-power:	3000W
lifting-motor-power:	1500W
working-voltage:	60V
weight:	1.55 tons
optional-attachments:	4 m(2-stage mast) Middle Oil Cylinder, Dedicated Steel Mast, Waste Clamp (with or without tipping), Distance Adjuster, Side Shifter, Bale Clamp, Log Clamp, Barrel Clamp, Flat Clamp, Cylindrical Clamp, Rotating Fork, Tipping Fork, Multi Pallet Fork, Soft Pack Fork, Tire Clip, Flat Bucket, Snow Shovel, Grapple, Ejector
