

Anti-Gawk Screen For Water Filled Barrier

SKU: WFBAGS

This durable anti-gawk screen is designed to complement water barriers, measuring 1965mm in width and 1200mm in height, with a weight of 20kg per panel.

Introducing the Anti-Gawk Screen tailored for Water-Filled Barriers, designed to seamlessly integrate with existing barrier systems, enhancing perimeter security and safety at construction sites and roadside activities. By attaching these fence panels to the barriers, a comprehensive level of protection is achieved, ensuring enhanced safety for temporary work zones.

Key Features:

- **Enhanced Protection:** Provides additional security and privacy around work sites when attached to water-filled barriers.
- **Optimal Dimensions:** Each panel measures 1965mm in width and 1200mm in height, ensuring effective coverage.
- **Durable Construction:** Crafted from hot-dipped galvanized steel, ensuring durability and resistance against corrosion.
- **Compatibility:** Designed to suit barrier units, ensuring compatibility and seamless integration.
- **Warranty:** Backed by a 1-year warranty, offering assurance of quality and reliability.

This robust anti-gawk screen not only fortifies the perimeter but also adds versatility to water-filled barrier systems, making them indispensable for a wide range of temporary work environments.
