

## Barrier Mesh Roll - Plastic Type 50m

SKU: BMRP5

HEIGER Orange Plastic Barrier Mesh Roll, measuring 50m x 900mm, is crafted from durable polypropylene that withstands UV exposure.

Sturdy and resilient plastic barrier mesh, perfect for construction and civil worksites. Available in rolls measuring 50m x 900mm, it's well-suited for extended applications. Our orange plastic safety mesh is crafted from UV-resistant polypropylene in a vibrant orange hue. HEIGER offers pallet quantities for significant savings: each pallet contains 60 rolls, ensuring ample stock for your needs. With fast delivery to Sydney, Melbourne, and Brisbane, purchasing in bulk is a breeze! Designed for long-term use, our orange safety mesh is manufactured from 100% virgin polypropylene to withstand harsh conditions. With a tensile strength of 4.4kN/m, it's durable enough to endure on-site wear and tear. Its simple setup makes it suitable for both short and extended applications.

### Specifications:

- Dimensions: 50mm x 900mm
- Roll weight: 6kg
- Mesh openings: 30mm x 75mm
- Tensile strength: 4.4kN/m
- 60 rolls per pallet
- UV resistant, designed for harsh conditions
- High-visibility orange polypropylene
- Thickness: 100 gsm

### Specification

colour:	High visibility orange
Material:	Plastic
pallet-quantity:	60 Rolls / Pallet
mesh-opening:	30mm x 75mm
tensile-strength:	4.4kN/m
density:	100GSM
weight:	6kg
length:	50m
height:	900mm
