

## Coco Garden Edging - 3m x 200mm

SKU: CGE302

HEIGER Coco Blocks are a superior alternative to traditional garden edging materials in Australia. These versatile building blocks are durable, sustainable, and very aesthetically pleasing, as they are made from 100% natural coir. The Coco Blocks can be easily shaped and molded to fit your Australian home garden layout. Their versatility enables you to achieve intricate patterns of specific dimensions.

Enhance the aesthetics of your home garden and create defining borders. HEIGER Coco Blocks are a superior alternative to traditional garden edging materials. Made from 100% natural coir, these versatile building blocks are a durable, sustainable, and very aesthetically pleasing solution to Australian Home Gardens. Conventional edging materials are synthetic and can deteriorate over time. Whereas HEIGER Coco Blocks are designed to stand the test of time. Resistant to decay, they maintain their structural integrity, ensuring your garden edges remain intact for years to come. With their organic texture, our Coco Blocks seamlessly blend with the surrounding greenery, adding a touch of natural elegance to your garden. Over time, they develop a beautiful weathered appearance, further enhancing the visual appeal of your garden edging.
