

Star Post / Fence Post Remover

SKU: SPR800

The Constructor Safe Post Remover/Lifter is a robust tool designed for heavy-duty post removal tasks, boasting a length of 800mm. Its sturdy construction ensures safe and efficient removal of posts, minimizing the risk of accidents or injuries on the job site. This essential tool provides reliable performance and ease of use, making it indispensable for various construction applications requiring the removal of posts.

Crafted from robust heavyweight steel, the Fence Post Remover/Lifter offers reliable performance in post removal tasks. With a length of 800mm, this tool simplifies the process of extracting star pickets and similar fence posts from the ground, ensuring efficiency and ease of use. Its fulcrum action mechanism facilitates the removal of fence posts without requiring excessive effort.

Key Features:

- Constructed from heavyweight steel for durability
- Designed for easy removal of star pickets and similar fence posts
- Fulcrum action mechanism aids in post extraction with minimal effort

Specifications:

- Length: 800mm
- Weight: Approximately 6.3kg
